PROFESSIONAL SUMMARY

Results-driven **Technical Project Manager & Java Full-Stack Architect** with **15+ years of experience** across Retail, Hospitality, Telecom, Healthcare, and Insurance domains. Proven track record leading cross-functional teams of 20+ engineers, delivering cloud-native Microservices and Hyper-Automation solutions for global clients (Marriott, Verizon, United Health Group, AT&T). Deep expertise in Java 8/11, Spring Boot, Kafka, AWS/Azure, RPA/UiPath, and Agile/Scrum frameworks. Experienced in pre-sales RFPs, SOC2 compliance, CI/CD, and stakeholder management.

PROFESSIONAL EXPERIENCE

Freelance Technical Trainer, Interview Panelist & Developer Sep 2024 – Present

Self-Employed

- Delivered hands-on Java, Spring Boot, and Microservices training to working professionals and fresh graduates, focusing on real-time debugging on live projects.
- Designed and assigned REST API development exercises complete with unit test cases to accelerate learner readiness.
- Served as Technical Interviewer to evaluate and shortlist Java Full-Stack + AWS candidates for client organizations.

Freelance Technical Project Manager Dec 2022 – Jul 2024

AgreeYa Solutions | Clients: HuLoop AI, Verizon, Bureau Veritas

- Led a 14-member engineering team (Angular, Java 8, Spring Boot, MongoDB, Python, Azure, QA, DevOps) building HuLoop AI's Low-Code/No-Code automation product; served concurrently as Scrum Master, Technical Lead, and Product Owner.
- Drove SOC2 certification compliance and established organization-wide processes: CI/CD pipelines, GitHub branching strategy, code/peer review gates, JIRA/Confluence workflows, and Release Management.
- Managed 21+ consultants for Verizon's Angular/Java full-stack program and led RPA solution delivery (Document Understanding, Invoice Processing via UiPath) for Bureau Veritas.
- Interfaced directly with CEO, CTO, and CCO on product roadmap, new feature prioritization, and platform revamp.

Technical Manager Sep 2021 – Oct 2022

Capgemini | Clients: Darden Restaurants, GAP Inc.

- Architected and led migration of legacy monolith application to Microservices (Java 8, Spring Boot, Kafka) for Darden, managing a 5-person onshore/offshore team.
- Delivered feature enhancements in Pricing & Promotions domain for GAP Inc. and implemented Jenkins CI/CD pipelines with SonarQube coverage reporting to enforce code quality.

Senior Associate – Platform Engineer (Level 1) Dec 2019 – Aug 2021

Publicis Sapient | Client: Marriott International (HVM Platform)

- Built cloud-native microservices for Marriott's HVM platform enabling Hotel Management Companies and property owners to register, manage, and monetize properties; stack: Spring Boot, Java 8, Kafka, Couchbase, AWS.

Senior Software Engineer Sep 2016 – Dec 2019

United Health Group (OGS) | Optum

- Developed Angular 7 / MDB Bootstrap clinical UI enabling ontology management from source repositories into production systems.
- Built MVP for Clinical Decision Support: Disease burden dashboards, patient health records, and provider performance analytics using Angular 7, Bootstrap, and REST APIs.
- Enhanced Healthcare & Insurance claims platform processing 8M+ transactions/day (Core Java, Struts, Spring, Hibernate, JSP, Shell scripting).
- Conducted R&D on HL7/FHIR standards to integrate SMART on FHIR app with top-tier EHR vendors.
- **Awards:** Diamond Award, STAR Award, OPAL Award for technical leadership, design excellence, and knowledge sharing.

Technology Analyst Sep 2014 – Aug 2016

Infosys Technologies Ltd. | Clients: Orange Business Services, T-Mobile

- Developed a CDR (Call Data Records) mediation platform (Core Java, Spring JDBC, Oracle PL/SQL, Shell, ANT) replacing a legacy system for Orange Business Services.
- Delivered OSGi/AEM 6 (Adobe CQ) web application for T-Mobile; earned INSTA Award for independent delivery and client coordination.

Software Developer Sep 2010 – Aug 2014

Tech Mahindra | Clients: AT&T, British Telecom

- Built SOAP/XML web-services middleware for AT&T; notification system (Email, SMS, AO) using Core Java, ALTOVA MAPFORCE/XMLSPY, and SQL.
- Developed Struts/JDBC/JSP reporting application and inventory data-reconciliation portal for British Telecom; contributed innovative automation tools reducing manual effort.
- Designated Agile Trainer for new joiners; represented Noida location as Configuration Manager for CMMi Level 5 certification (2014).
- **Awards:** Associate of the Month, Pat on the Back, Cookies Award (×3).

EDUCATION

B.Tech – Electronics & Communication Engineering — College of Technology, Pantnagar (G.B.P.U.A.&T.) | 2010 | 7.815 / 10 CGPA

Class XII – CBSE — Adarsh Bal Niketan, Roorkee | 2006 | 82.40%

Class X – CBSE — Adarsh Bal Niketan, Roorkee | 2004 | 87.20%

TECHNICAL SKILLS

Languages: Java 8/9/11, Core Java, PL/SQL, JavaScript, HTML, CSS, JSP, XML, Shell Scripting, Angular 7, React

Frameworks: Spring Boot, Spring MVC, Hibernate, Struts, Microservices, REST APIs, Kafka, Cucumber

Cloud & DevOps: AWS, Azure, Jenkins, Azure DevOps, Docker, GitHub, BitBucket, SVN, Maven, Ant, SonarQube

Databases: Oracle, MySQL, MongoDB, Couchbase (RDBMS & NoSQL)

Project Mgmt: JIRA, Confluence, MS Project, Scrum, Agile, SDLC, Rally Dev, SOC2 Compliance

RPA / Automation: UiPath, HuLoop AI (Low-Code/No-Code), ALTOVA MAPFORCE & XMLSPY, AI Tools

Tools / IDEs: IntelliJ, Eclipse, Visual Studio, SQL Developer, Quality Center, Putty, WinSCP
